

VISIONARY LEADER

Dr. Basheer Ahmed is a visionary leader, nothing short of excellence who gives back to the community and resides here amongst us. His childhood years were spent between India and Pakistan, understanding the rich culture, heritage and religion of his people, soon to imply it in the future to achieve great accomplishments. With a keen interest in Psychology, graduating from Dow Medical College in Karachi, Dr. Basheer Ahmed is currently a Board Certified Psychiatrist and utilizes these humanitarian skills vastly around the globe. He has won many awards over his career including being personally invited by US President Jimmy Carter, along with other Muslim leaders to discuss the Iranian Crises. After achieving such a high level of importance and success, Dr. Basheer's personality and character still resemble humbleness and piety as he is heavily involved in helping many communities and organizations. Credit goes to his wife, Shakeela Ahmed as well, who always supports and encourages him. His passion of medicine combined with the urge to reach out to the community led him to become the Founder and chairman of the Muslim Community Center for Human Services which specializes in offering medical and social services to those less fortunate in the Texas area. Recently adding to his collection of achievements, on 19th May 2012 he was awarded "pride of Performance" at a prestigious banquet event hosted by Safeer-E-Pakistan. His work is truly inspiring as he is a leader, volunteer and pillar of strength to our community. It is an honor to have his participation in our community and always strives for improvement. May God give him strength and bless him for all the volunteer work, support and countless hours put in to help our community progress forward to a better future.
